Dedication

DR. WILBUR O. RAMSEY

Professor and Head of Removable Prosthodontics

We of the graduating class have come to realize that the Department of Removable Prosthodontics offers an environment of ideal student-faculty rapport. Within the department can always be found the spirit of tolerance and dedication so essential to effective education. We, therefore, take great pride in dedicating this yearbook to the head of the department, Dr. Wilbur O. Ramsey, a man of untiring dedication and consummate clinical skill. We are the beneficiaries of his talent, his humor and his humanitarianism and we are privileged to call him a friend.

PEOPLE WHO MAKE THE SCHOOL GO 'ROUND

Honorary Senior Class President

DR. JOSÉ H. DIAZ

There are many ways to inspire true professionalism. None of these can be effective unless they include the qualities of dignity, consideration, and wisdom. Dr. José Diaz carries with him a singular measure of these qualities. We are deeply indebted to him for his example and selfless dedication to us and our profession.

He honors us by accepting the position of Honorary President of the Class of 1967.

Seated: Lopez, Vandenberge, Ahlfeld.
Standing: Taggart, Oblinger, Lizewski, Egan, Smith, Giordano, Kaiser, Parmenetier, Barren, McInnes, Baldwin.

The Student Senate is no more. After several long meetings early in the school year a new constitution was drafted. It was accepted by the Student Senate and in January, 1967, it was approved by the Faculty Council. We wish to recognize Dr. Burton R. Pollack for his assistance in formulating the document.

The constitution and bylaws spell out the duties of each officer of the Association and of each class officer. All elections are standardized to avoid future confusion. Each student must become an A.D.A. member.

The Association is presently working on amendments to the constitution and bylaws concerning the Student Loan Fund, a professional code of ethics, fraternity relations, the organization of extracurricular activities and a workable annual budget.

We wish to thank Mr. Gardner P. H. Foley and Miss Patricia Brown for their unfailing assistance to the Association administration.

Gorgas Odontological Society

Membership in the Gorgas Odontological Society signifies outstanding academic achievement and leadership in our school and our profession. Each year invitations for membership are given to those juniors and seniors who stand in the first thirty percent of their class.

The Society, formed in 1916, is named in honor of Dr. Ferdinand J. S. Gorgas, an outstanding graduate of the school who was a widely recognized leader in the field of dental education.

Monthly meetings afford members education benefits beyond the outlined dental school curriculum through the presentation of guest speakers. Each year at the spring formal senior members are presented with a key and a certificate. The faculty advisor is Dr. José E. Medina.

Advice to the Dentally Disturbed

Ask Mrs. Rankwell

Dear Mrs. Rankwell,

I'm a cute, chubby instructor at the B.C.D.S. I recent'y bought the newest red felt tip pen which I love very much. Do you think that's abnormal?

F.A.F.

Dear Chubby,

Not if it loves you too.

Dear Mrs. Rankwell,

I'm also an instructor at B.C.D.S. but I'm bored with life. Recently I took up bridge. Do you think it will stimulate me and make me more intelligent?

F.M.

Dear Also,

Definitely not! Chronic bridge playing leads to a dulling of perception. Quit now! I hope I'm not too late.

Dear Mrs. Rankwell,

I'm a periodontist, but I have a low income. What am I doing wrong?

C.T.P.

Dear Gum Man,

Your trouble is your hygienist. Fire her and charge twice the fee for the same service.

Dear Mrs. Rankwell,

What's this tommyrot about modern dentistry I've been hearing?

E.B.N.

Dear Tommy,

Just common sense, son.

Dear Mrs. Rankwell,

I advocate changing the term "endodontics" to "internal dentistry" which is more apt and would upgrade public opinion of this specialty. How do you feel about that?

I.A.

Dear Super,

Dyspeptic.

Dear Mrs. Rankwell,

I love my work but I have this chronic urge to further my education. What can I do?

B.P., D.D.S., LL.B.,
M.P.H., F.A.H.,
P.F.I.D.

Dear Chief,

Try dentistry.

Dear Mrs. Rankwell,

I used to think dentistry was O.K. but I don't think it's O.K. anymore. Do you think this feeling is O.K.?

G.O.

Dear Go,

Maybe a refresher course would help, O.K.?

Dear Mrs. Rankwell,

I was born on a farm and long for the feeling of grass between my toes. However, I'm an instructor at the B.C.D.S. What should I do?

H.C.

Dear Farmer,

I suggest you try to change your image by reading the Wall Street Journal and bringing your lunch to school.

Dear Mrs. Rankwell,

I am a senior student at the B.C.D.S. I have been getting the short end of the stick for three and a half years. What should I do?

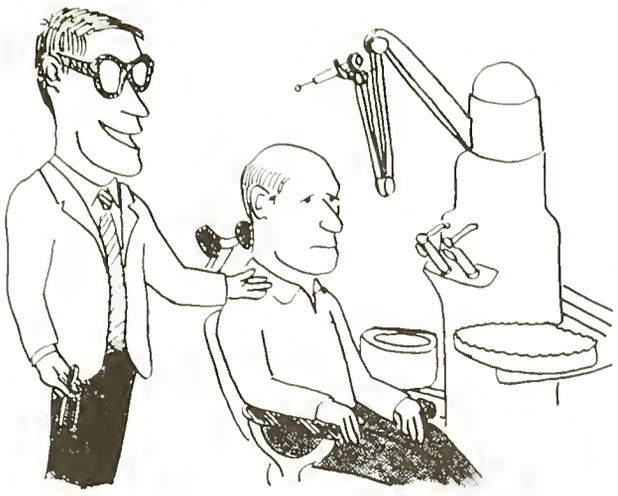
S.S.

Dear S.S.,

Try graduating.

OCCLUSAL ADJUSTMENT

1



GENTLEMEN, TODAY I'M GOING TO DEMONSTRATE THE TECHNIQUE OF OCCLUSAL ADJUSTMENT BY SELECTIVE GRINDING.....

2

FIRST WE IDENTIFY THE PREMATURITIES IN THE CENTRIC PATH OF CLOSURE. ISN'T THAT RIGHT, NUMBER 28?

3

THAT'S ALMOST RIGHT, BUT WE'LL GET TO THAT LATER. NOW WE'LL REDUCE THE PREMATURITIES AND THE NON-WORKING INTERFERENCES.....

4

..... AND REMOVE GRASPING CONTACTS ON THE WORKING SIDE AND... ESTABLISH GROUP FUNCTION...

5

..... THEN ESTABLISH GROUP FUNCTION IN A PROTRUSIVE GLIDE PATTERN AND POLISH ALL AREAS.

6

NOW NUMBER 72, WHAT HAVE WE ACCOMPLISHED?

THAT'S CLOSE.
WE HAVE REDISTRIBUTED THE FORCES GENERATED BY THE OCCLUSION IN THE MOST PHYSIOLOGIC FASHION UTILIZING THE CRITERIA FOR A THERAPEUTIC OCCLUSION.....

Things to look forward to . . .

The trust in a little girl's eyes. Added years of health for an old man. A youngster who's no longer afraid . . .

People you'll help in your new career—things to be proud of—the reason, really, you've chosen dentistry as your life.

Great to contribute so much to so many! And even greater to think of the years ahead—years in which your work, and the way you do it, will be vital to more people than you can imagine.

As the years roll by, our job will be in helping you perform this increasingly complex work. In doing our part, we'll get involved in such things as basic research, product cost control, safeguarding your equipment investment, better office design, work simplification, effective use of auxiliary personnel, service excellence and availability.

It all boils down to one thing: we'd like to help you provide *better dentistry for more people.* That's pretty important to everyone. Good luck in your new career, Doctor!

RITTER EQUIPMENT COMPANY / Rochester, New York 14603 / a division of Ritter Pfaudler Corporation **RITTER**

How will you present your first denture case?

Your patient is likely to be apprehensive. Chances are, you may be a little nervous yourself.

In such a situation you will want to use every possible means to gain your patient's confidence and create the proper emotional climate for your diagnosis and treatment.

Consider the Blend Selector for Trubyte Bioblend. It is an invaluable aid to natural tooth color selection. And, during the all important first appointment, it is a highly effective instrument for demonstrating your own professional knowledge and skill.

The Blend Selector is so unique it is patented. There is nothing like it in the entire world of dentistry. Ask your Trubyte Dealer to show you its use, in practice—for your first denture case, and for all the denture cases in your forthcoming career.

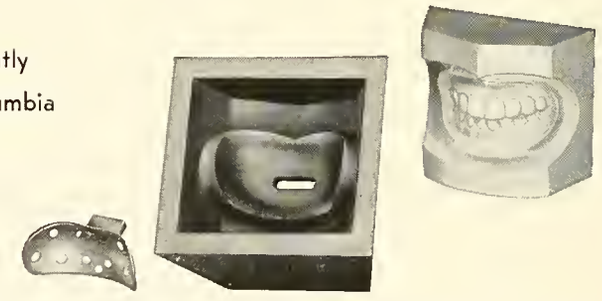
Price $20.00

Anterior-Bite Models Made Neatly and Quickly with the NEW Columbia Anterior-Bite Model Former . . .

Ideal for making models for pre-extraction records for immediate or permanent dentures.



- A special anterior impression tray takes impressions of both upper and lower together; no need for separate impressions.
- Impression tray is then pressed into slot in the flexible rubber model former. With one pouring of plaster or stone a neat, sharply-outlined model of the anterior bite . . . in one piece . . . is easily produced.

Neat, presentable models of the anterior bite are also advantageous in a "before-and-after" demonstration to the patient.

Order today this anterior-bite model former with one tray—Cat. No. 903—$8.50
Extra trays $1.50 each

DENTAL GRADUATE CHECK LIST!

TO SELECT A DENTAL DEALER:

- √ Are they a full service dealer?
- √ Do they specialize in location analysis?
- √ Do they have their own Interior Design Department?
- √ Do they have their own Interior Decoration Department to render a complete service?
- √ Can they install a specialized dental bookkeeping system?

Only one dealer in your area has all of these services available.

Some dentists
think all makes
of burs
are the same...

until they use
S. S. White
Carbide Burs

Why do dentists who try S. S. White Carbide Burs invariably switch to them permanently? Because they cut faster, cleaner . . . and *longer.* And they won't clog or cause vibration. In short, they help you do cavity preparation faster, saving you time and money. Try them just once and you'll know they are dentistry's finest. Look for the two grooves on the shank to be sure of getting S. S. White Carbide Burs.

Porcelain and plastic are completely different materials with entirely different color values. With this Twin-Dial guide you can select the exact Polychrome color for either . . . colors that blend superbly and go beautifully with deeply embedded Polychrome markings simulating the normal imperfections of natural teeth. The result? A true-to-life *three dimensional look* you and your denture patient will be proud of. Let's send you this guide and descriptive booklet.
